ACHIEVEMENTS

- First in-segment company to manufacture Ground Clearance Kits specifically designed and developed for Cars.
- Less than 1% Complain regarding product performance and fitments.
- More than 35,000 Cars have been installed with Autocron's Ground Clearance Kits.
- Error Free Operations in Automotive Segment Company.

CHILL! The Car will not hit speed breakers or any sort of potholes.

DON'T FREAK OVER A FUMBLE

High-Density Shield. Tougher than any Rubber Pads, Aluminum Pads, and Buffers

Dual layer coil lock technology for improved driving dynamics and stability

Professional Grade Chemical Inject for increased safety and density

D' DRAMATIC MODE

**THE NEW STAR AND
BESTIE FOR YOUR CAR**

There's no kit like Ground Clearance Kit

Avoids Scrapping the Ground

This Kit avoids scrapping the ground on steep driveways and speed bumps and conquers the worst off road conditions. Thanks to the increased Ground Clearance.

Effortless

Effortlessly passes over to the speed breakers where previously you have to be cautious.

Increases Ground Clearance

Improves the overall stance and look of your vehicle and increases the Ground Clearance of the Car by 20 to 25 M.M.

Easy Installation

Installation of this Kit is very easy any local mechanic or multi-brand workshop, tires and alignment centers can easily install this kit

BEFORE

AFTER

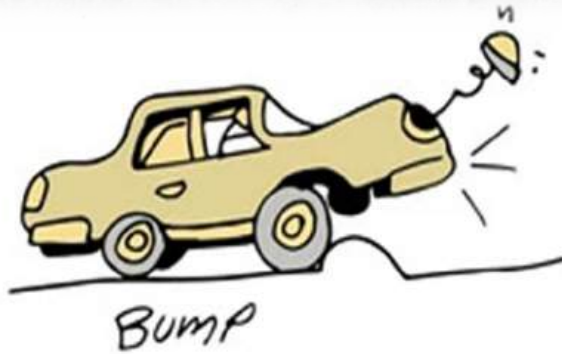

It is to note that the ground clearance comparo which can be seen above will be there in every models. Some little bit difference can be seen car model wise that is due to cars aerodynamic norms

MEASUREMENT GUIDELINES

PARTICULARS	IN STAND BY (MM)	IN NORMAL CAPACITY (MM)	IN FULL CAPACITY (MM)
Ground Clearance (Before Kit Fitment)	165*	135 –145	115 –120
Ground Clearance (After Kit Fitment)	185*	150 –160	135 –140

** The guidelines are being measured by our expert team to give an accurate approx. ground clearance measure which will ensure stability and safety of the Car.*
